4. Weapons of the school included one 122-mm howitzer; 1 model DschK M-1938 heavy machine gun, 2 Maxim heavy machine guns; and one Goryunov heavy machine gun. The instruction officer for infantry equipment said that a shipment of several guns came in by rail in early October and was stored in the gun storage shed. Motor vehicles of the school included 5 M-3-A trucks; 2 BMW and BMW sedans; and 1 ambulance.
 5. A Soviet adviser who held the rank of colonel was assigned to the school. He appeared only occasionally and did not personally interfere with the service of the units.
 6. Instruction^{given} at the school included instruction on the model 100 rifle, model 100 submachine gun, model TT-33 pistol, Goryunov heavy machine gun, Maxim heavy machine gun, DschK heavy machine gun; ballistics; the development of infantry and artillery ammunition; combat training in the terrain at platoon level for marksmanship training; and instruction on the carburetor engine and maintenance of motor vehicles.

[REDACTED] Comment. In early September 1953, the ordnance school moved from Gera to Pirna.

25X1

[REDACTED] Lieutenant Colonel Weiss (fnu), probably succeeded Colonel Thiele (fnu), the previous school commander. It is believed that Colonel Thiele was reassigned to Lotrilugk.
